ARMY SUSTAINABLE RANGE PROGRAM (SRP) SUPPORT CONTRACT

**provides a cost
effective, time
efficient, and
flexible capability
to support
management of
Army ranges and
land assets**

The Sustainable Range Program (SRP) Support Contract is a 5-year, approximately \$200 million contract support vehicle developed by the Army **to ensure sustainability of U.S. Army military training ranges, lands, and operating areas.**

The indefinite delivery, indefinite quantity (IDIQ) contract was awarded in 2004 and the ordering period extends through 2009. This easy-to-use contract vehicle offers firm, fixed-price performance work statements (PWS), with pre-negotiated labor rates to ensure timely, high quality, cost-effective services.

Long lead times are history -

PWS procedures for the SRP Support Contract have been refined and streamlined to ensure rapid contracting of SRP support. And because the SRP Contract is an IDIQ Contract, **you are free to tailor PWSs to your unique requirement** - so that you can buy only what you want, when you want, and where you want.

**There is a ~~no~~ fee
associated with the use of this
contract.**

**ATSC Offer
Customer-focused
Commitment!**

PRIME CONTRACTOR TEAM

CALIBRE SYSTEMS - a center of installation, environmental, financial, logistical, and information technology expertise, provides value to customers for sustainable management of training ranges, installations, land assets, and natural and cultural resources. Their expertise includes developing cost effective solutions to holistically and proactively operate, equip, and manage training, and training facilities; plan and conduct environmental compliance and remediation actions; provide GIS products of all types; create and implement outreach products; and otherwise focus the company's expertise on supporting Army training requirements that are critical to Army readiness. CALIBRE's team includes 13 specialty subcontractors.
